

SRIJA CHADA

(251) 373-6506 • srijachada4@gmail.com • Mobile, AL • linkedin.com/in/srija-chada-9

PROFESSIONAL SUMMARY

Data Science & IT professional with a Master's in Computer and Information Sciences (GPA 3.6) and hands-on experience in machine learning model development, cloud deployment, and full-stack software engineering. Proven ability to build and deploy AI-driven solutions, manage data pipelines, and collaborate across technical teams. Seeking roles in Data Analytics, Business Intelligence, IT Business Analysis, or Junior ML Engineering.

PROFESSIONAL EXPERIENCE

Graduate Research Assistant | University of South Alabama | Mobile, AL Jan 2022 – Aug 2022

PREFER Project: Precision Regional Forecasting via Intelligent & Rapid Harnessing

- **10% improvement in prediction accuracy**Built and optimized ML models (Python, TensorFlow, Scikit-learn) for real-time weather forecasting, achieving
- **20% through automated cleaning and integration of large-scale meteorological datasets**Reduced data preprocessing time by
- Deployed forecasting models on cloud platforms (AWS) ensuring scalability and real-time analytics
- Collaborated cross-functionally with data scientists and engineers to fine-tune AI-driven predictive models
- Integrated real-time weather data from South Alabama meteorological sources into live forecasting pipeline

Student Assistant – Business Office | University of South Alabama | Mobile, AL Sept 2023 – Dec 2023

- Managed confidential university records using Banner ERP system, ensuring 100% compliance with data security policies
- Maintained data integrity while processing sensitive institutional documents for administrative teams
- Collaborated with staff to streamline document management workflows, improving processing efficiency

TECHNICAL SKILLS

Languages	Python, SQL, JavaScript, Java, C#, HTML, CSS, Bash
ML & Data	TensorFlow, Scikit-learn, Keras, Pandas, NumPy, SPSS, Data Preprocessing, Feature Engineering
Cloud & DevOps	AWS, VMware, Git, GitHub, GitHub Actions, CI/CD
Web & Frameworks	ASP.NET MVC, .NET, Entity Framework, LINQ
Cybersecurity	Ethical Hacking, OWASP Top 10, Web App Penetration Testing, Nmap, Metasploit, Wireshark, Burp Suite
Tools & IDEs	VS Code, PyCharm, IntelliJ, Eclipse, MySQL, Microsoft SQL Server, ServiceNow
Methodologies	Agile/Scrum, TDD, IT Service Management (ITSM), Project Management

KEY PROJECTS

PICU Admit Log Application | .NET MVC Healthcare System |

- Built patient admission dashboard for a Pediatric ICU using .NET MVC, enabling real-time tracking of admissions, procedures, and discharge records
- Designed responsive UI components integrated with backend controllers, improving clinical workflow efficiency

Fake Profile Detection System | Deep Learning | Python |

- Developed CNN-based deep learning model to classify social media profiles as real or fake with high accuracy

- Designed end-to-end data pipeline for preprocessing, tokenization, and model training; optimized hyperparameters to improve classification metrics

Community Resources Web App | C# | .NET | AWS |

- Built open-source MVC web application connecting locals to government and community events, organized by zip code
- Integrated ASP.NET Identity for secure user authentication and Azure for cloud hosting

EDUCATION

Master of Science — Computer and Information Sciences | University of South Alabama | Mobile, AL 2022 – 2023

GPA: 3.6 / 4.0

Relevant Coursework: CIS Research Methodologies, Information Assurance/IT Audit, App Design & Implementation, Info Systems Analysis & Design, Database Management, Project & Change Management, Function Integration, Enterprise Integration, Cloud Computing

Research Paper (CIS 518): Authored independent research paper on Voice-Based Email (VE-Mail) systems for visually impaired users. Conducted comprehensive literature review of 9+ peer-reviewed IEEE publications. Analyzed AI-driven technologies including speech recognition, face recognition, and IVR systems. Proposed fingerprint-based authentication as optimal security method.

Bachelor of Science — Computer Science Engineering | Malla Reddy Institute of Engineering and Technology | Hyderabad, India 2018 – 2021

GPA: 7.2 / 10

Relevant Coursework: OOP (Java), Data Structures, Operating Systems, DBMS, Computer Organization & Architecture, Design & Analysis of Algorithms, Software Engineering, Compiler Design, Computer Networks, Web Technologies, Artificial Intelligence, FLAT, Data Mining

Diploma — Electrical & Electronics Engineering

Balaji Institute of Technology & Science · Warangal, Hyderabad, India · 2015 – 2018 · GPA: 8.5 / 10

CERTIFICATIONS

- Certified Ethical Hacking, Cybersecurity & Web Penetration Testing — ER Segment
- Advanced Python Certification — RN Reddy IT School
- Python Workshop — Completion Certificate
